

**Dave Wishart – Hospital to Home Program Lead, Actual Rehab
B. Physio, APAM**

Dave Wishart is the Hospital to Home Program Lead at Actual Rehab, a South Australian rehabilitation provider assisting injured people across the state.

He leads a multidisciplinary team working alongside hospital staff to facilitate safe and effective transitions from hospital to home for individuals with complex physical and psychosocial needs following motor vehicle accidents.

Prior to joining Actual Rehab, Dave worked in SA Health across a range of settings, supporting patients through all stages of injury and illness, from acute trauma care to rehabilitation and end-of-life care. His background also includes military and trade experience, equipping him with strong problem-solving skills and the ability to manage complex, time-sensitive cases.
