

## **Dr Emma Fitzgerald**

Dr Emma Fitzgerald is an experienced Clinical Neuropsychologist with a career spanning over 20 years. She has a strong interest in brain injury and rehabilitation, primarily working in the medicolegal and forensic areas of neuropsychology. She has taught assessment and neuropsychology subjects to Clinical Psychology Masters students at Adelaide University, Flinders University and Uni SA. She has also provided supervision to interns and registrars within her practice. Along with Dr Lucas, Dr Fitzgerald is co-founder and co-director of the new multidisciplinary neuropsychology-led Adelaide Concussion Recovery Service and is passionate about developing a service to help people with persistent symptoms of concussion to improve their quality of life.
