

## **Dr Sara Lucas**

Dr Sara Lucas is one of Adelaide's leading clinical neuropsychologists in the medicolegal arena and has extensive experience with personal injury, workers compensation and other legal capacity cases – this involves independent private practice as well as consulting for MLCOA. She has a Doctorate of Clinical Neuropsychology from Macquarie University and a Graduate Diploma of Health Law from University of Sydney. She also has published papers on issues relating to psychometrics, traumatic brain injury and malingering and has taught at a number of Universities in both Sydney and Adelaide. She is the co-founder and co-director of a new multidisciplinary neuropsychology-led Adelaide Concussion Recovery Service and hopes to improve outcomes for people presenting with persisting symptoms of concussion through use of newly emerging evidence focused on psychological aspects and risk factors for prolonged symptoms.
