

**Jaclyn Zippel**

Senior Occupational Therapist | Procure Group

Jaclyn Zippel is a Senior Occupational Therapist with extensive experience in vocational rehabilitation, specialising in complex and catastrophic injury assessment and management, particularly in relation to brain injuries sustained in motor vehicle or workplace accidents. Working with Procure Group, she is dedicated to providing services to regional and remote clients, ensuring equitable access to care. Jaclyn takes a client-centred approach, focusing on enhancing each client's individual strengths by promoting independence, building resilience, and empowering them to overcome challenges. This approach ensures that rehabilitation is tailored to each person's needs, improving long-term outcomes. She is accredited to deliver the Functional Independence Measure (FIM), which is utilised to assess care needs, and assist in determination of eligibility for lifetime support schemes.
